COLOR CODED LUBRICATION MANAGEMENT

REDUCE CONTAMINATION • IMPROVE WORKPLACES • INCREASE PRODUCTION • KEEP BEST PRACTICE

For over two decades, the OilSafe System has been the preferred oil transfer management system for leading companies around the world.

People often go to great lengths to preserve the quality of oil, only to contaminate it by using filthy containers, pouring it through a dirty funnel, or inadvertently mixing it with different oil.

The OilSafe system is a fully sealing unit that prevents contaminants from getting into the oil. The pour spouts make dispensing quick and easy, and are available in 10 different colors that help prevent cross contamination.

AVAILABLE IN 10 COLORS

Hand Pumps

OilSafe down-stroke pumps deliver 1 liter with approximately 12 strokes.

Unique Color Coding

Bright colors make it easy to identify lubricants, and even easier to find OilSafe dispensers.

Graduated Markings

See through drums with marks visible in both liters and US quarts make it easy to see and measure levels.

Interchangable Lids/Drums

Any style lid works with any size drum.

Quick Twist Spout

Easy to open and close, while controlling the flow and keeping dirt out.

Push Buttons

Spout lid design allows for auto shutoff air intake, enabling smooth pouring of lubricants.

Robust Lid Design

Allows for easy handling during transfer

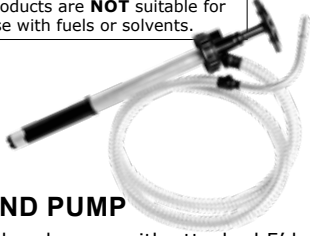

COMPATIBILITY:

Drums and lids are HDPE with Buna seals. Other seals available.

TRANSFER DRUMS, PUMPS, & LIDS

WARNING: Products are **NOT** suitable for use with fuels or solvents.

BASIC HAND PUMP

A lightweight hand pump with attached 5' hose and no-drip tip, handling fluids up to ISO 460.

Basic Pump 102900

STARTER KIT

5 different OilSafe lids, 5 OilSafe drums, 2 lid spout extensions and a standard pump.

Starter Kit FF0010

DRUMS

Fully interchangeable with all lids in the OilSafe system. Measured with metric/quart markings.

3 Liter/US Quart	101003
5 Liter/US Quart	101005
10 Liter/US Quart	101010

STANDARD PUMP

This standard option delivers 1L for approx. 12 strokes. Supplied with a 5ft outlet hose and anti-drip nozzle, handling fluids up to ISO 460. Match with an OilSafe Utility Lid/Drum.

Standard Pump 102000

UTILITY LID

This multipurpose lid with a 2" outlet hole controls fast pours. Store or draw from pre-filled OilSafe drums with an oil pump.

Beige	100200	Mid Green	100205
Black	100201	Orange	100206
Blue	100202	Purple	100207
Dark Green	100203	Red	100208
Gray	100204	Yellow	100209

Unscrew the Utility Lid cap to attach a pump of your choice and draw from a drum.

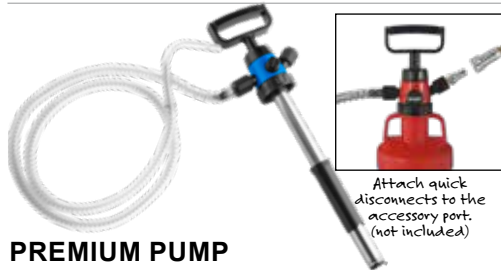

5 GALLON DRUM KIT

Includes a Color Coded ID Tag (w/ zip tie) for identification, and a pump adapter for use with Hand Pumps/Battery Operated Pumps.

Beige	FF5GP0	Mid Green	FF5GP5
Black	FF5GP1	Orange	FF5GP6
Blue	FF5GP2	Purple	FF5GP7
Dark Green	FF5GP3	Red	FF5GP8
Gray	FF5GP4	Yellow	FF5GP9

Compatible with OilSafe hand pumps. OilSafe pour lids not compatible with 5 gallon drum kit.

PREMIUM PUMP

A heavy duty, color coded, fully servicable pump. Contains an accessory port and an ergonomic D-handle grip; pair with a matching Utility Lid/OilSafe drum. Handles fluids up to ISO 680. Explore a range of accessories (*sold seperately*).

Beige	102300	Mid Green	102305
Black	102301	Orange	102306
Blue	102302	Purple	102307
Dark Green	102303	Red	102308
Gray	102304	Yellow	102309

STRETCH SPOUT LID

Ideal for low viscosity oil (<ISO 220) precision pours in difficult areas; Spout opens 0.5" (12mm).

Beige	100300	Mid Green	100305
Black	100301	Orange	100306
Blue	100302	Purple	100307
Dark Green	100303	Red	100308
Gray	100304	Yellow	100309

Stretch Spout Extension Hose 12" 102020

STUMPY SPOUT LID

Delivers a higher lubricant flow with a wide spout (1"/2.5cm). Extension hose available.

Beige	100500	Mid Green	100505
Black	100501	Orange	100506
Blue	100502	Purple	100507
Dark Green	100503	Red	100508
Gray	100504	Yellow	100509

Stumpy Spout Extension Hose 9" 102021

BATTERY OPERATED PUMP

A rechargable, 18v Li-Ion Battery Pump. Handles up to ISO 680 oils at flow rates of 1.5 GPM+, and works with 5 Gal. Pails and OilSafe 5/10L drums.

(Oils) 5 Gal. Pails/OS Drums FFBP20-K
(Oils) 16 to 55 Gal. Drums FFBP60-K

MINI SPOUT LID

A narrow spout ideal for precise lubrication filling. Outlet diameter approx. 0.25" (7mm).

Beige	100400	Mid Green	100405
Black	100401	Orange	100406
Blue	100402	Purple	100407
Dark Green	100403	Red	100408
Gray	100404	Yellow	100409

STORAGE LID

Store/transport pre-filled drums with this lid; A great alternative to handling bulky 5 gal. pails.

Beige	100100	Mid Green	100105
Black	100101	Orange	100106
Blue	100102	Purple	100107
Dark Green	100103	Red	100108
Gray	100104	Yellow	100109

PORTABLE + STATIONARY FILTRATION UNITS

Best in class filtration units for stationary and portable transfer applications. Most items can be 100% customized to suit your filtration needs. Choose from a wide range of units for typical applications such as transferring oils, collecting oil samples for analysis, pre-filtering new oils, filtering contaminated systems, dispensing new oils, flushing new/repairs systems, and much more.

Explore customized filtration solutions, including:

- Drum Filter Carts
- Drum Toppers
- Filter Paks
- Filter Carts
- Panel Units
- Steel Tote Carts
- Tandem Filter Carts
- Platform Carts

OILSAFE BULK SYSTEMS

OilSafe Bulk Systems are the highest quality and most feature rich lubricant storage and dispensing systems available. An OilSafe bulk storage system will enable you to take immediate control over your lubrication workflow process and get your lubricant storage areas and practices clean, efficient, and compliant.

The two main systems are the **Advanced** and the **Lubrication Work Center**. Each can be configured to meet your specific workplace requirements. Additional secondary systems are available to supplement lube management either in the field or in other areas of the workplace.

CUSTOM SOLUTIONS

When your business is aiming to not only meet, but *exceed* industry standards, a custom solution can be just what you're looking for.

Work closely with a **ForFluids representative** to build systems that are tailored to your day-to-day needs. You can feel confident whether creating a configuration for specific filtration purposes, or setting up an entire site where you can establish a safe and efficient base of operations for managing lubricants.

Customization is available for **Bulk Systems, Lubrication Storage Rooms, Filtration Units, Labeling/Fluid Identification**, and more.
